**Thank you all for coming to Australia for wvfc07!!**

The athletes, coaches, officials, referees and friends have left.

The hall is empty, the last strains of the Italian anthem from the final ceremony drift across the universe. We miss you!

**Thank you for trusting us with your very special event,  
The World Veterans' Championships!**

It was three years in the planing. Budgets, websites, floorplans, designs and applications - joy and frustration.

We planned for a friendly "Athletes focussed Event" and and it was so easy to do it with you - *The best competitors and delegations in the World!!*

You were polite, you were kind, you accepted our little problems, you tried hard to understand our accents. You were great! As the participants you are our reason, you are the focus of our plans. You were generous with praise and congratulations for our work and that is greatly appreciated.

You were fantastic competitors and treated us all to memorable matches.  
To the champions – congratulations, to all of you, you are all winners by competing in this event – thank you, and we hope to see you again . . . . .

**CONGRATULATIONS ALL!**
